

Not Getting an NEF at the End of Filing (posted 06/20/06):

If you are not getting an NEF at the end of a filing it is likely a time out issue, due to server responses during e-filing. It is suggested that if you have a number of documents to attach to one filing (e.g. affidavit with exhibits) that the sum total MB for **ALL** documents being attached does not exceed 25MB (25,000 kb) Research shows that attaching 25MB or less reduces the likelihood that the servers will "time out."
